

Kids Club Activity #4

We have now been at home in our lockdown bubbles with our families for 4 weeks - So, I thought it would be nice if you showed your family how important they are to you.

Next time you go down to the beach on a family bubble walk or bike ride hunt around and find small pieces of driftwood that you can turn into each member of your family. When you get home have fun drawing faces on them, painting them, or dressing them with paper, material, ribbons, wool or anything else you have handy to use.

When you have finished maybe you can display them by putting some blue tac on the bottom or stand them in a box with sand for your whole family to see.....

Your own little family group

- 🙏 ***Pray for your family***
- 🙏 ***Thank God that they love you and look after you***
- 🙏 ***Ask God to keep them safe from the Virus***

Because I'm in a bubble all by myself I decided to make my grandchildren who I love very much so, I collected 10 pieces of driftwood and turned them into images of my 10 grandchildren - Now I can see each of them when I pray for them.

Here's a photo of my driftwood kids – I had so much fun making them I'm sure you will too.

Can you send me a photo of your Bubble family when you've finished.

***Have fun
Love from***
